Facsimile (08) 9310 2839 (Overseas +618 9310 2839)
Email info@arc.wa.gov.au **Web Site** www.arc.wa.gov.au

Ordering Procedures

Specific **conditions of sale** apply to the purchase of animals from the Animal Resources Centre. These can be viewed at www.arc.wa.gov.au . Animals will only be supplied when an Animal Ethics Committee approval number is provided.

In order to supply promptly, sales are usually made on the basis of telephone orders without written documentation. Any provision of a purchase order or confirmation which contains additional or conflicting information to the telephone order will not be binding on us. Please consider this when placing your order.

All orders need to be received by the latest 11am AWST for both Interstate and Local clients the day before despatch. This is to ensure that the Order Confirmation can be issued at 1pm AWST the day before despatch, for review.

Please contact Animal Resources Centre immediately if you found the order information incorrect. Changes can only be made by 9am AWST on the day of despatch for Interstate clients and 8am on the day of despatch for Local clients.

Cancellation of Orders

It is a policy of the Animal Resources Centre that once an order is placed by a customer it is a binding contract. We accept that orders may have to be cancelled but we will not accept a cancellation immediately prior to delivery or if animals have been specifically held or bred for the order. If an order is cancelled under these circumstances the customer will be invoiced for the cost of the animals.

Age of Animals: Birth dates of production animals are not recorded. Mice and rats are maintained in age cohorts relative to the week in which the animal is weaned. Weaning occurs during the week the animal reaches 21 days of age. If exact age is required we will set up a specific order. Add 10% to the list price per animal.

Please note that mice and rat stocks are held to 8 and 12 weeks respectively. Prior notice is required for animals older than this. Additional charges will be incurred. For animals older than 26 weeks please ask for a quotation.

Surcharge: A surcharge of 10% will be incurred for animals ordered within a weight range or age range not otherwise specified in this price list. Animals are shipped at the body weight requested but fluctuations will occur normally during transit and we cannot guarantee actual bodyweight on arrival.

Pre-mated animals: Mating is determined by observation of a vaginal plug. **Day 0 of pregnancy is the day the vaginal plug is seen.** We are able to guarantee that 100% of mice and rats supplied after day 14 post-mating will be pregnant, however loss of litters can occur during transport. **Conditions of sale for time mated animals can be viewed at www.arc.wa.gov.au .**

Credit Policy: Please ensure that your order is correct on receipt. In the event of losses in transport or abnormalities in the order please notify the Centre within 24 hours. Replacement of stocks or credit will be negotiated. No responsibility will be accepted for late notification.

The Animal Resources Centre can under no circumstances accept the return of animals after despatch as they cannot be returned to the SPF barrier production units.

Currently:

- 1. Our terms of credit on accounts payable is 30 days.**
- 2. A 10% surcharge will apply to all accounts in excess of 60 days.**
- 3. The ARC now accepts Visa and Master Card payments. There are no fees for domestic purchases.**

Interstate 2014 "NO GST"

Embryo Rederivation of rodents

Rederivation of mice consists of a series of steps and is dependent on the strain reproductive characteristics and number of breeders supplied. The steps to complete the rederivation include:

- Maintenance to build colony to supply donors (supplied 3 pairs producing 5-6 pups per litter)
- Maintenance of colony from first ET until full health clearance of rederived pups
- Extra Embryo Transfer if required
- Housing in mini isolators 10 weeks until health clearance to transfer to ARC or customer facility.
- Comprehensive Health Testing

A comprehensive quote is provided when these details are known to produce 5 pairs.

Caesarian rederivation can be undertaken if strain is not suited to embryo transfer, but pasteurilla may not be eliminated.

Barrier Maintenance charges

- Mice \$9.60 per box per week basic husbandry
- Rats \$14.40 per box per week basic husbandry

Additional services are provided on a fee for service or technician time basis.

Cryopreservation of Embryos

The total cost varies with the strain, reproductive performance and number of embryos required.

A comprehensive quote is provided when these details are known.

Cryopreservation of Sperm

A comprehensive quote is provided. Options available are validation to live pup and test mating males before freezing

Animal Transportation

Delivery boxes - IATA approved shippers:

	large	\$37.95	rats only - shipper size with filter lid
National	medium	\$29.40	with new filter lid plus divider add \$11.30
	small	\$20.60	with new filter lid plus divider add \$9.50

GST is not incurred on international shippers.

	large	\$42.50	rigid plastic international shipper
	small	\$38.00	rigid plastic international shipper

Exports - The ARC can ship animals with Health Certificates and AQIS documentation to any country. A comprehensive quote is provided on request. Contact exports@arc.wa.gov.au

Exporting client owned animals

The ARC can organise the export of animals on behalf of clients to any country. Contact exports@arc.wa.gov.au

Importing Animals -The ARC can source and import animals from within Australia or overseas. A comprehensive quote is provided on request. Contact imports@arc.wa.gov.au
